Lord of the Rings... extended version, yes or no?

My friends and I always discuss whether it is worth watching the trilogy in the normal or extended version (personally I prefer the extended version), what do you think, and why? Also the normal version is free with prime video meanwhile the extended version costs about €10 each movie...

Why is Reyna so broken?

Reyna definitely needs a nerf; her abilities make her too dominant in matches, disrupting game balance like a mischievous prankster at a tea party.
